Bachelor of Computer Applications, 9.69 CGPA

Bangalore, Karnataka

August 2022 – May 2025

EXPERIENCE

Software Development Intern

IOLITE Technologies Ltd.

Nov 2024 – Present

CHRIST Online, Bangalore

- Developed a responsive static website for CHRIST University's online education platform, ensuring accessibility across devices
- Structured and implemented core site layout with HTML, CSS, and JavaScript to deliver a smooth user experience
- Collaborated with team on UI elements, contributing to page design and interactivity features.

Graphic Design and Market Research - CAPS (Internship)

CHRIST (Deemed to be University)

May 2023 – Jun 2023

Bangalore

- Conducted market research, data analysis, and proposal development across 3+ key projects.
- Boosted CAPS' Instagram engagement by 5.5% in a single day through targeted content strategies and quality improvements.
- Gained hands-on experience in proposal writing, social media management, and cross-functional collaboration, and marketing

PROJECTS

Student App - Christite | React Native, AppWrite(BaaS), Node.js

[Source Code](#) | [Documentation](#)

- Enhanced the existing Christ University Student App by redesigning the interface for better usability, accessibility, and navigation
- Implemented secure user authentication and profile management with password recovery
- Implemented features such as a visual attendance tracker, grade tracking module, news updates, and club engagement portal to improve student experience.

HEAL | HTML, CSS (Bootstrap), JavaScript, PHP, MySQL, Google Maps API

[Source Code](#) | [Documentation](#)

- Built a web application combining mental health support services and an integrated e-commerce platform for self-care products.
- Implemented secure login, counseling services, and therapist-client matching, with a real-time dynamic product listing and shop
- Designed an e-commerce module for mental health products, supporting vendor collaboration, product listings, and secure payments

ACHIEVEMENTS

Runner-Up at Open Weaver Makeathon (48-hour event), which initiated the HEAL project

Participant in UX Hackathon, conducted user research, developed personas, and designed high-level prototypes using Visily.

Awarded Merit Scholarship for consistent academic excellence and top performance in coursework.
